PEARL LENGTHS

The *collar* is 12-13" and lies tight around the neck

The *choker* is 14-16" and lies near the neck

The *princess* is 17-19" and is longer on the neck

The *matinee* is 20-24" and falls about half way down the chest

The *opera* is 28-34" and falls down toward the stomach

The *rope* is over 45" and hits near the waist

Several of these can be mixed and matched, doubled up, or even have a pearl bracelet that can attach to necklaces to be longer. Even mixing of different pearl colors and types is a great way to enhance your wardrobe and express your style.
